SUMMARY

Flutter developer who ships and maintains production apps used every day. Four apps live on Google Play and the App Store — Quran audio streaming, an AI-assisted Islamic lifestyle app, personal finance and fuel tracking. Comfortable owning an app end to end: architecture, offline-first storage, background audio and alarms, English/Bangla localization, testing and store release.

SKILLS

Mobile	Flutter, Dart, Riverpod, Provider, responsive phone & tablet UI, background audio (just_audio), alarms & notifications, home-screen widgets
Data & backend	Firebase (Auth, Firestore, FCM, Crashlytics, Analytics), Supabase (RLS, Realtime, Edge Functions), Drift / SQLite, Hive, REST APIs with Dio
On-device ML	Google ML Kit (OCR, document scanning), TensorFlow Lite, OpenCV edge detection, passport MRZ parsing
Engineering	Clean architecture, unit / widget / integration tests, Git, CI builds, Play Console & App Store Connect releases, i18n (EN / BN)

EXPERIENCE

Flutter Developer — Onesttech Software Solutions

Apr 2026 – Present · Dhaka

- Delivered **436 commits over 78 working days** across four production apps, three of them started from scratch.
- RUSHD** (232 commits): built the Ask Noor AI assistant with conversation history and voice playback, a live two-player vocabulary game with lobbies and ranks, recitation checking, a Hadith library and tablet layouts; shipped through v3.6.0 on both stores.
- AI Quran Majeed** (121 commits): took the app from first commit to store growth in **six weeks** — streaming from 260+ reciters with background playback, sleep timer, stream caching and a fallback source for weak networks.
- ESDANA**: built an alumni-network app from scratch in **three weeks** (49 commits).
- Website Monitor**: on-device uptime, API, SSL and domain-expiry checks (34 commits).

SELECTED PROJECTS

Budget Mint

Flutter · Firebase · Personal finance

LIVE

- Expenses, trip splitting with friends and shared meal budgets.
- PDF & Excel reports with correct Bangla rendering; Google & Apple sign-in, biometric lock, widgets.

FuelSync

Flutter · Drift · Maps · ML Kit

LIVE

- Offline-first fuel log, mileage and cost-per-km tracking per vehicle.
- Receipt OCR, trip maps, service reminders and exportable reports.

Dosey

Flutter · Supabase · Drift

IN DEVELOPMENT

- Medicine reminders with full-screen alarms that ring even when the app is closed.
- Family sharing on Supabase with row-level security and Realtime; prescription scanning.

Docyra

Flutter · OpenCV · ML Kit · PDF

IN DEVELOPMENT

- Offline document & ID scanner — nothing is uploaded.
- Live edge detection, OCR, MRZ parsing; merge, sign, watermark and lock PDFs.

EDUCATION

BSc in Computer Science & Engineering — Daffodil International University

2022 – 2026

Data structures, algorithms, system design and compiler concepts.

LANGUAGES

Bangla (native) · English (professional working proficiency)
